

This vast 265 km<sup>2</sup> (65,000 acre) private estate was established in the 19th century to conserve and protect wildlife habitat. More than 100 years later, a staff biologist continues to maintain nature's balance and preserve the reserve's spectacular resources.

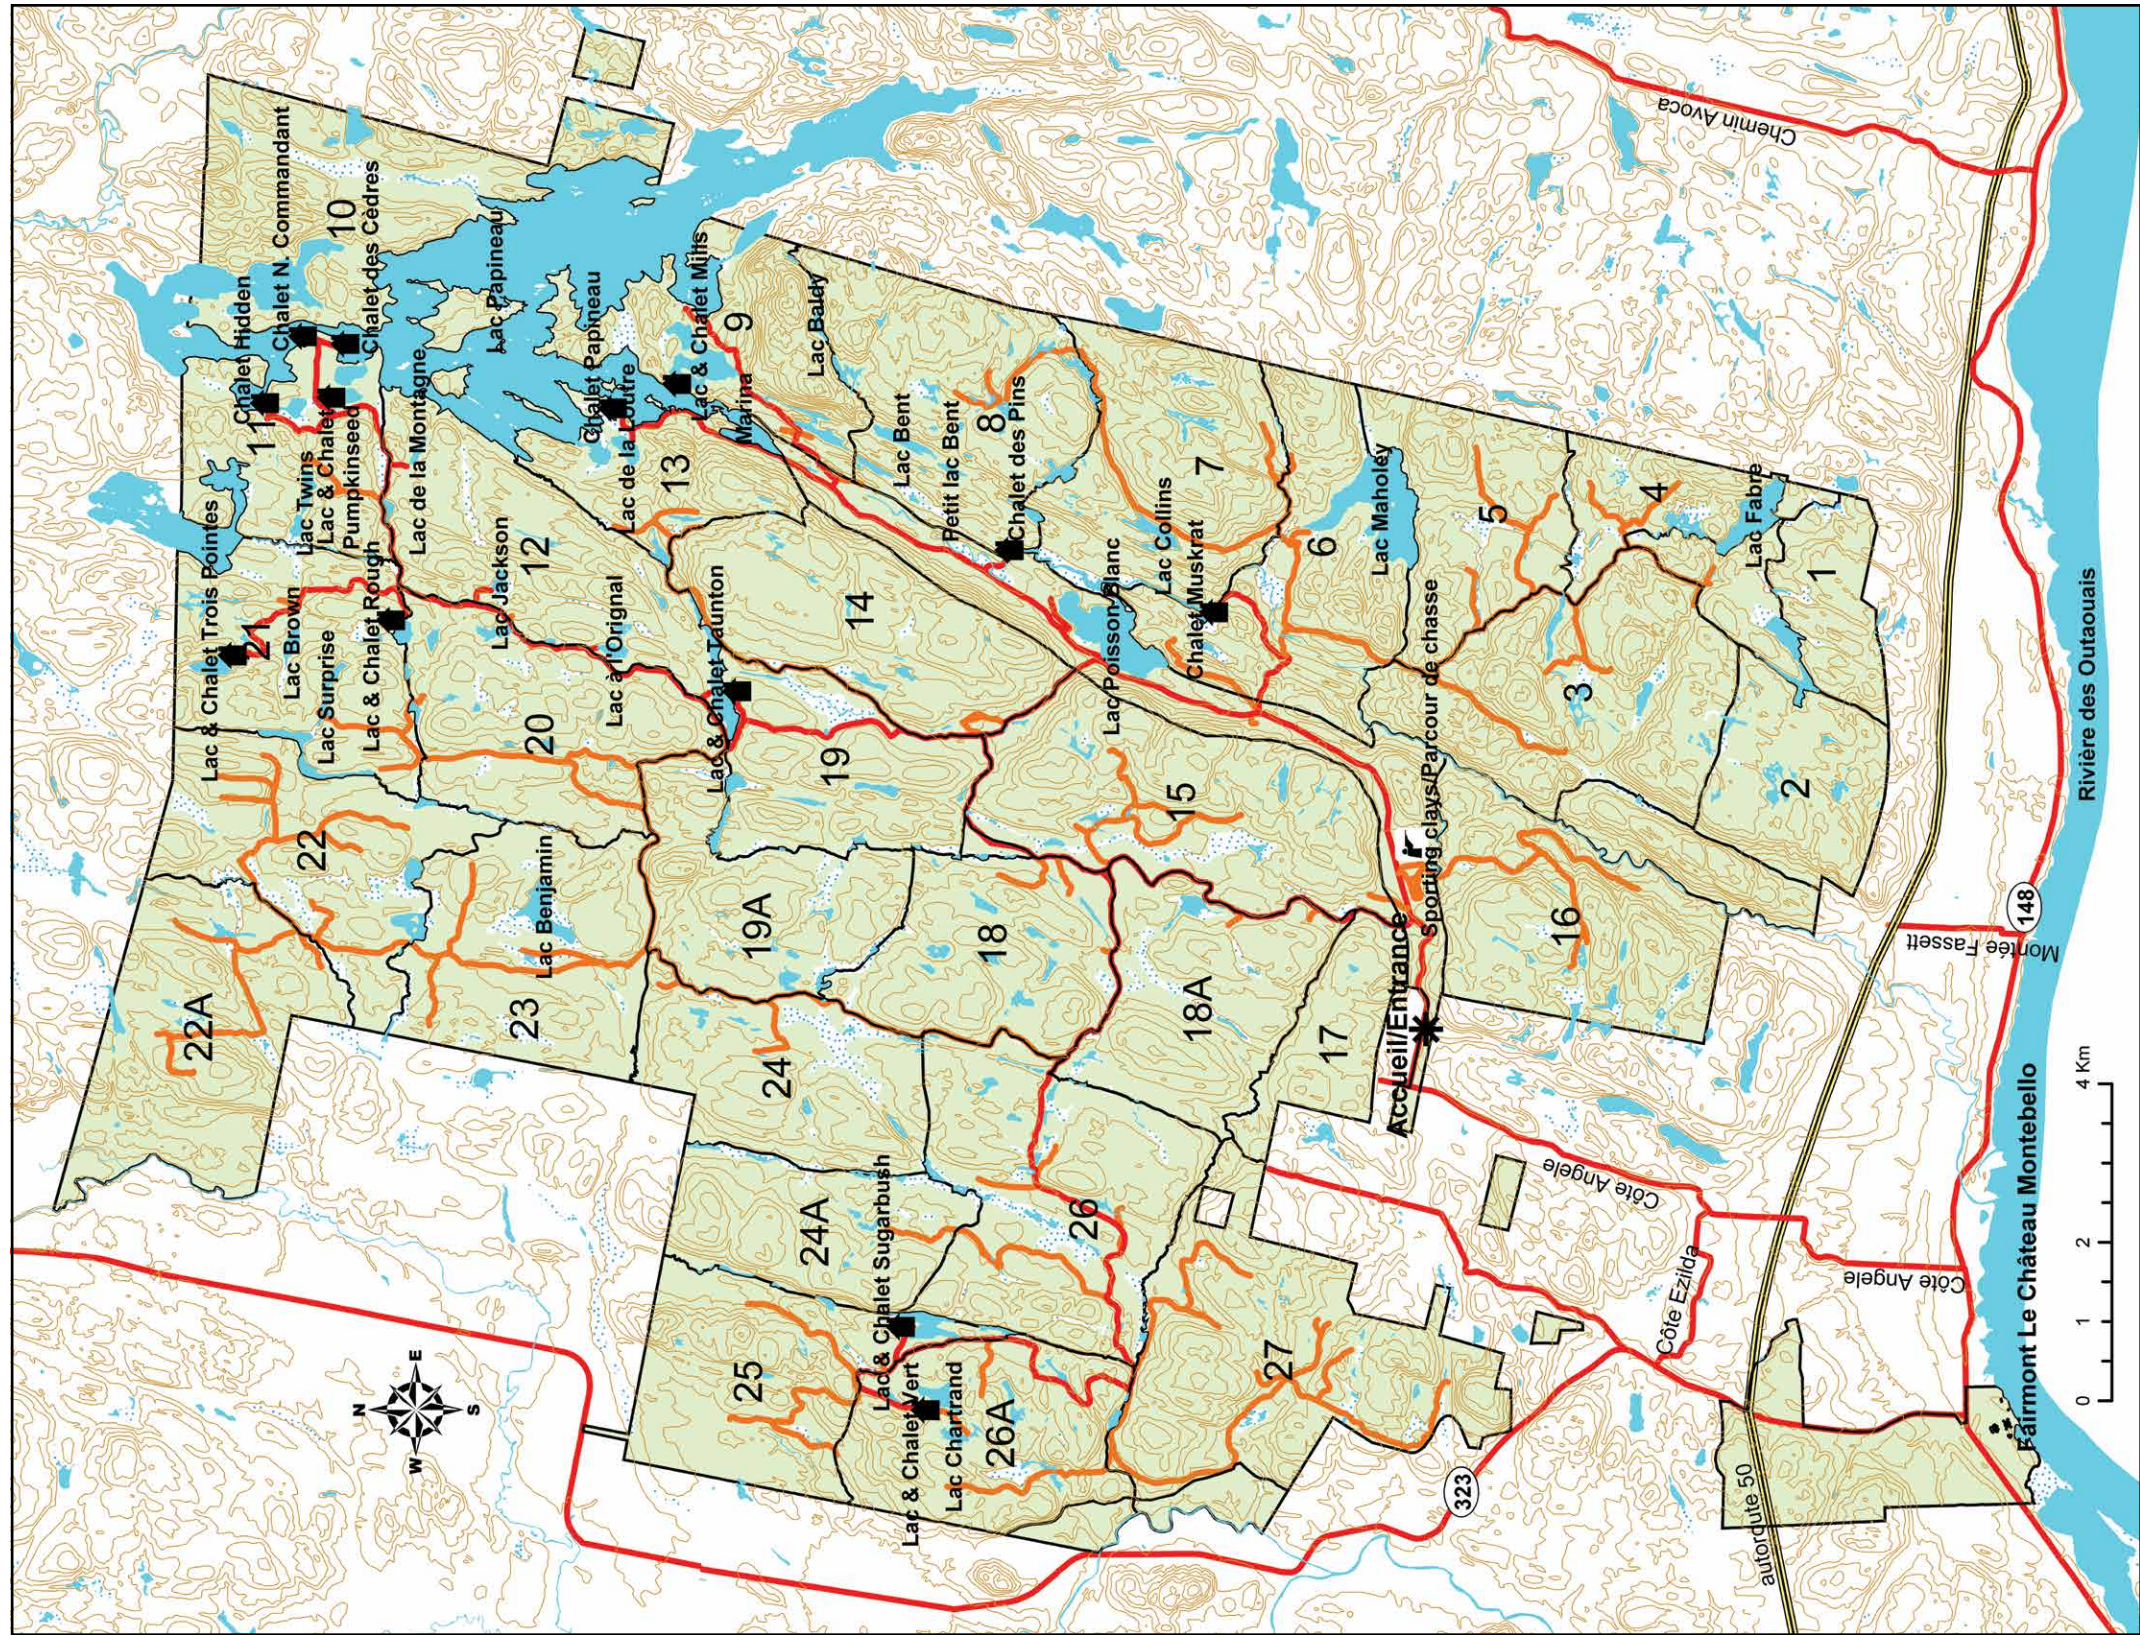

## Fishing and hunting at its best

Our magnificent hardwood forest encompasses 65 lakes, 25 of them designated for fishing. Kenauk Nature is well known as one of Quebec's premier fishing destinations and its lakes and rivers support an incredibly wide variety of fish—rainbow, speckled and lake trout; largemouth and smallmouth bass; and northern pike.

The reserve is equally well known for white-tailed deer and moose hunting. Our habitat management plan ensures a healthy population of large deer and moose, which results in the kind of hunting success that keeps our hunters coming back year after year.

## HUNTING AND FISHING TERRITORIES

# KENAUK NATURE

Just north of the Ottawa River and only one and a half hours from the cities of Ottawa and Montréal, Kenauk Nature is one of the most important and oldest private hunting and fishing reserves in North America.

1000 Chemin Kenauk, Montebello, Quebec J0V 1L0
